DMX EP-MEDIA2
CONTROLLER

Product Introduction:

The EP-MEDIA2-BC is the budget product in the range. It comes with the Sunlite Suite 2 software in Economy mode and offers 512 DMX OUT and 512 DMX IN channels.

This is the ideal product for applications where a single DMX universe is enough (clubs, djs, bars...). Associated to a MIDI console, the software becomes very powerful and offers all you need to control your lighting.

Specification
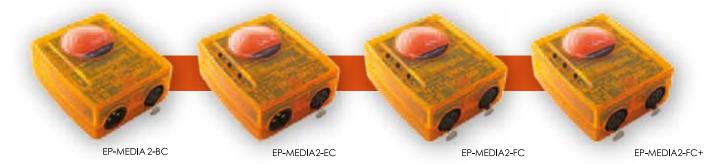

- Standard USB-DMX interface.
- 1 DMX OUT universe (512 channels) and 1 DMX IN universe
- Works with Easy Sand Alone, Sunlite Suite 1 and Suite 2 software (not compatible with EasyShow, ESA Pro).
- Delivered with an installation CDROM including user manual.
- Compatible with Windows XP/VISTA/SEVEN 32/64-bit.

The complete suite of professional lighting software

Starting with the EP-MEDIA-BC, the Suite 2 range includes 4 packages, compatible with both Sunlite Suite and Suite 2 software. The latest generation of USB-DMX interfaces from Nicolaudie is fully compatible with 64-bit Windows and offers a powerful protection against non authorized copies using the AP (Anti Piracy) technology.
